### Background Summary:

- The City performs an annual survey of the culverts within the City limits and determines which are most in need of repair or replacement
- Project determination is based upon the severity of its deterioration and the available budget with which to perform the work
- Using these criteria, the culvert in Purdam Gulch Drain at Lyonsdale Place was chosen for repair/replacement (Exhibit A)
- On August 19, 2024, Council approved a consent to bid for the Culvert Replacement FY24 project
- The Engineer's estimate for the project was \$271,930.00
- The city received four bids (4) bids, and the apparent low bidder is Dasco of Idaho at \$219,189.00 (Exhibit B)

  - Granite Excavation \$310,315.00
  - Dasco of Idaho \$219,189.00
  - Idaho Dirt Company \$219,925.00
