3/25/25

To whom it may be concerned:

We recently learned that on the night of March 9th 2025, we are considered to have over-served one of our patrons, and are sorry that we are unable to attend the hearing on 3/26/25 in person. We still want to convey some information to the panel that we would like to have considered in our defense.

We take over-service very seriously at our place and all of our employees are certified through state approved programs to recognize signs of inebriation and to not serve someone with obvious signs of intoxication, and to help the patron by offering to connect them to a cab service or person who might be able to offer them a safe trip home, or at the very least a place to rest for a moment and drink water while we help them figure out what to do next. It is worth pointing out that over the almost 11 years that Prefunk has operated in downtown Nampa, this is our first time being cited with an Alcohol License Violation.

We would like to point out that all of our draft products are named and processed through our point of sale Square, and according to our sales records, the last time we accepted payment for the Pink Boots beer was at 1906 on 3/09/25. Also during the incident of the defendant being cited (3/9/25, 2307 hours) we had already processed our last payment of the day by 2148, as we close by 2200 hours on Sundays, and the defendant could have done anything in that hour that we had no control over. The whole sales report is a bit overwhelming to be attached to an email, but can be submitted if needed.

Again, we take over-service very seriously at our place, control our portions based on percent ABV, closely monitor our patrons and the speed at which they consume their beverages, and constantly intercommunicate between staff to identify people that already have been or could possibly become over-served.

We love our community and wish to keep it safe for everyone. Thank you so much for taking the time to hear us out and we are always ready and available to communicate if needed.
